

# iPower Reports Fiscal First Quarter 2023 Results

November 14, 2022

- Fiscal Q1 Revenue up 50% to a Record \$26.0 Million -

- iPower Management to Host Conference Call Today at 4:30 p.m. Eastern Time -

DUARTE, Calif., Nov. 14, 2022 (GLOBE NEWSWIRE) -- iPower Inc. (Nasdaq:IPW) ("iPower" or the "Company"), a leading online retailer and supplier of consumer home and garden products, today announced its financial results for its fiscal first quarter ended September 30, 2022.

# Fiscal Q1 2023 Results vs. Year-Ago Quarter

- Total revenue increased 50% to \$26.0 million.
- Gross profit increased 37% to \$10.0 million.
- As a percentage of revenue, gross margin was 38.4% compared to 42.1%.
- Net loss was \$4.3 million or \$(0.14) per share as compared to net income of \$0.9 million or \$0.03 per share. The decline was primarily driven by a \$3.1 million goodwill impairment triggered by a decrease in the Company's market capitalization and the net loss in the quarter.

# **Management Commentary**

"Fiscal Q1 was a period of strong growth despite contending with lingering challenges in the supply chain," said Lawrence Tan, CEO of iPower. "We generated 50% year-over-year revenue growth while also increasing our in-house product catalog and diversifying our sales with non-hydroponic products. This shift, coupled with our ability to materially grow sales, demonstrates our superior product research, design and merchandising expertise.

"In the next week, we will be unveiling our new corporate rebrand and website. With non-hydroponic products now accounting for the majority of sales, we felt it was prudent to revamp our image to better showcase the new iPower businesses alongside our increasingly diverse product portfolio. This strategic decision will unify iPower's various products and services as we continue to grow the business both domestically and abroad."

iPower CFO Kevin Vassily added, "Although certain headwinds in the macro environment persist, we have begun to see improvements in shipping lead times and a reduction in freight costs, which will enable us to lower inventory levels and reduce short-term warehouse expenses. We expect this to benefit our operating margins as well as our cash flow. Looking ahead, we plan to continue driving growth in both our hydroponic and non-hydroponic businesses, while maintaining our judicious approach to capital allocation and returning to profitability."

# Fiscal First Quarter 2023 Financial Results

Total revenue in the fiscal first quarter of 2023 increased 50% to \$26.0 million compared to \$17.4 million for the same period in fiscal 2022. The increase was driven by strong demand for iPower's non-hydroponic product portfolio, including commercial fans, shelving equipment and office chairs, among other items.

Gross profit in the fiscal first quarter of 2023 increased 37% to \$10.0 million as compared to \$7.3 million for the same quarter in fiscal 2022. As a percentage of revenue, gross margin was 38.4% compared to 42.1%. The decrease in gross margin was primarily driven by a greater portion of sales coming from older inventory that incurred higher freight costs.

Total operating expenses in the fiscal first quarter were \$11.5 million compared to \$6.0 million for the same period in fiscal 2022. As a percentage of revenue, operating expenses were 44.1% compared to 34.7% in the year-ago quarter. The increase in operating expenses was primarily driven by higher warehouse expenses due to elevated inventory levels.

Net loss in the fiscal first quarter of 2023 was \$4.3 million or \$(0.14) per share, compared to a net income of \$0.9 million or \$0.03 per share for the same period in fiscal 2022. The decline was primarily driven by a \$3.1 million goodwill impairment charge triggered by the decline in the Company's market capitalization, as well as the aforementioned higher warehouse and freight expenses.

Cash and cash equivalents were \$4.8 million at September 30, 2022, compared to \$1.8 million at June 30, 2022. The increase was primarily due to lower inventory purchases. Total long-term debt as of September 30, 2022 was \$16.1 million compared to \$14.1 million as of June 30, 2022. The increase was driven in-part by timing as the Company utilized its revolving line of credit to better manage working capital.

#### **Conference Call**

The Company will conduct a conference call at 4:30 p.m. Eastern time on Monday, November 14, 2022, to discuss the results for its fiscal first quarter ended September 30, 2022.

iPower management will host the conference call, followed by a question-and-answer period. The conference call details are as follows:

Date: Monday, November 14, 2022 Time: 4:30 p.m. Eastern time Dial-in registration link: here

#### Live webcast registration link: here

Please call the conference call dial-in 5-10 minutes prior to the start time. An operator will register your name and organization. If you have any difficulty connecting with the conference call, please contact Elevate IR at (720) 330-2829.

The conference call will also be broadcast live and available for replay in the Events & Presentations section of the Company's website at <a href="https://www.meetipower.com">www.meetipower.com</a>.

#### About iPower Inc.
