

iPower Reports Fiscal Second Quarter 2024 Results

February 14, 2024

- iPower Management to Host Conference Call Today at 4:30 p.m. Eastern Time -

DUARTE, Calif., Feb. 14, 2024 (GLOBE NEWSWIRE) -- iPower Inc. (Nasdaq: IPW) ("iPower" or the "Company"), a tech and data-driven online retailer and supplier of consumer home and garden products, as well as a provider of value-added ecommerce services, today announced its financial results for the fiscal second quarter ended December 31, 2023.

Fiscal Q2 2024 Results vs. Fiscal Q2 2023 (unless otherwise noted)

- Total revenue was \$16.8 million compared to \$19.3 million.
- Gross profit was \$7.3 million compared to \$8.0 million, with gross margin up 220 bps to 43.6% compared to 41.4%.
- Net loss attributable to iPower improved 42% to \$1.9 million or \$(0.06) per share, compared to net loss attributable to iPower of \$3.3 million or \$(0.11) per share.
- As of December 31, 2023, net debt (total debt less cash) was reduced by 56% to \$3.6 million compared to net debt of \$8.1 million as of June 30, 2023.

Management Commentary

"In our fiscal second quarter, we continued to drive gross margin expansion, operating cost reductions and another period of positive cash flow from operations," said Lawrence Tan, CEO of iPower. "Due to improvements in the supply chain environment, our largest channel partner has progressively tightened their inventory management as shipping lead times have become more favorable. Although this led to lower order volumes for the quarter, we believe this channel partner's inventory is now at a preferred level and we are well equipped to meet demand with the high-quality products our customers expect.

"We also continued to gain traction in our SuperSuite business as we leverage our superior supply chain, warehousing and merchandising expertise to drive sales growth for partners with innovative product catalogs. We look forward to growing this exciting segment of our business as we further evaluate prospective partners in the months ahead."

iPower CFO, Kevin Vassily, added, "Our gross margin and operating expense improvements were primarily driven by the reduction of high-cost inventory and excess warehousing space. Additionally, we reduced total debt obligations by approximately \$2 million during the quarter, demonstrating our commitment to strengthening the balance sheet. We believe these actions, coupled with early signs of normalized order volumes with our largest channel partner, will enable us to deliver on our goals with the aim of returning to profitability in 2024."

Fiscal Second Quarter 2024 Financial Results

Total revenue in the fiscal second quarter of 2024 was \$16.8 million compared to \$19.3 million for the same period in fiscal 2023. The decrease was driven primarily by lower promotional activity given iPower's normalized inventory level, as well as lower order volumes from the Company's largest channel partner who is more tightly managing inventory levels due to the improved supply chain environment. This was partially offset by growth in the Company's SuperSuite supply chain offerings.

Gross profit in the fiscal second quarter of 2024 was \$7.3 million compared to \$8.0 million in the same quarter in fiscal 2023. As a percentage of revenue, gross margin increased 220 basis points to 43.6% compared to 41.4% in the year-ago period. The increase in gross margin was primarily driven by favorable product mix.

Total operating expenses in the fiscal second quarter of 2024 improved 18% to \$9.9 million compared to \$12.1 million for the same period in fiscal 2023. The decrease was driven primarily by lower selling, fulfillment and marketing expenses.

Net loss attributable to iPower in the fiscal second quarter of 2024 improved 42% to \$1.9 million or \$(0.06) per share, compared to net loss attributable to iPower of \$3.3 million or \$(0.11) per share for the same period in fiscal 2023. The improvement was driven primarily by the higher gross margin and lower operating expenses.

Cash and cash equivalents were \$1.5 million at December 31, 2023, compared to \$3.7 million at June 30, 2023. Total debt as of December 31, 2023 was \$5.0 million compared to \$11.8 million as of June 30, 2023. As a result of the Company's debt paydown, net debt (total debt less cash) was reduced by 56% to \$3.6 million compared to \$8.1 million as of June 30, 2023.
